The map illustrates the topography of a glacial basin, with contour lines marked in meters above sea level (m a.s.l.). Key geographical features include:

- **Angelsbach cirque**
- **Stollenbach**
- **Zastler Tal**
- **Schaunsland**
- **Feldberg** (1493 m a.s.l.)

**Legend:**
- Contour line (m a.s.l.)
- Stream
- Glacial cirque
- Moraine crest
- Moraine

**Grid Reference:**
- 424000 426000
- 5304000 5306000

**Scale:**
- 0.1 km

**Inset Maps:**
- (a) Detailed view of the glacial cirque and moraines
- (b) Comparative view with a smaller scale map

**Legend Elements:**
- **Contour Lines:** Dashed lines indicate the elevation levels of the topography.
- **Stream Lines:** Solid lines denote water courses flowing through the area.
- **Glacial Cirque:** Shaded areas represent the glacial cirque, a bowl-like depression in the landscape.
- **Moraine Crest:** The raised edges of glacial deposits are indicated by these lines.
- **Moraine:** The Accumulated debris from glacial activity is shown.
